

Dear Parents,

I am looking forward to having your children next year in 3rd grade. Over the summer it is very important that the children continue to practice their math facts. There are a lot of fun websites for children to do this that are free. I listed one below to try. You can also do this by logging into freckle using their account. I am also sending home a small math packet if you need extra practice for your child. I will not be collecting them in September. As for reading, I have listed the book they need to read over the summer. Attached is a summary they need to complete and hand in when they return to school in September. This will count as their first reading grade. If you have any questions please feel free to email me jmeloni5@smrsonline.com. I wish all of you a wonderful and safe summer. See you all in September.

God Bless,
Mrs. Meloni
